

Discover Cosmic Rays

INTERNATIONAL COSMIC DAY

October 8, 2014

Also this year DESY, Fermilab, QuarkNet and Network Particle World are organizing the 2nd International Cosmic Day. School students from across the globe can participate and ask question like:

- what are cosmic particle?
- where do they come from?
- how can they be measured?

Scientists working to answer these questions invite school students to join up for a day to get in contact with real science and...

- perform your own cosmic particle experiment
- analyze and present your data on a common website
- compare your own results with the others
- work as in an international research collaboration

Some Participating Groups:

DESY, Hamburg

CERN, Geneve

Fermilab, Batavia

University of Birmingham

Università di Roma "Sapienza", Rome

Università del Salento, Lecce

Aula Benvenuti

Dipartimento di Matematica e Fisica "Ennio De Giorgi"

Become a Scientist for a Day

Discover the world of cosmic rays like an astroparticle physicist.

Local Organizers:

Gianluigi Chiarello, Maria Rita Coluccia,
Alessandro Corvaglia, Ivan De Mitri, Marco Panareo,
Maria Paola Panetta, Aurora Pepino,
Lorenzo Perrone, Carlo Pinto, Viviana Scherini
